DV Prompter
TP-600

TP-600
Product Video

A teleprompter allows a presenter to look into the camera lens and read a script from a reflected screen equipped with beam-splitter glass. Most teleprompters are for use in the studio but the Datavideo TP range can be used anywhere!

Convert Apple or Android tablets into cost-effective and easy to use prompter solutions. Scripts can be easily loaded, character font, size, color and scrolling speed are all adjustable.

Wired and optional Bluetooth remotes allow users to control the speed to achieve natural results.

Protective Cases

HC-600

HC-500

The dv prompter application is available to download Free from Apple™ App Store™ & Google Play.

NEW Product

Wireless Controller - WR-500

The wireless version uses Bluetooth technology and can be charged over USB. It can also be tethered to a device via a USB cable.

DV Prompter Pro Wireless Prompting System
DVP-100

DVP-100
Product Video

DVP-100 is a wireless teleprompting system designed to centrally control prompter screens. The DV Prompter Pro server creates its own WiFi hotspot ready for you to connect multiple screens, tablets and computers devices and start prompting. Once connected, you simply need to select if the device is to be a controller or a prompter screen. Up to 6 devices can be connected to the server simultaneously. The controller can create and load new scripts, control the scrolling and perform live edits on all prompter screens in real time. All scripts and settings are stored on the dvPrompter server not the devices themselves.

■ Multiple prompter screens kept in perfect sync
■ Remote control & script management over WiFi
■ IOS App available
■ Compatible with any device that has a HTML5 compliant web browser
■ Embedded rich text editor
■ Perform live edits
■ Control multiple prompters from one controller
■ Scripts are stored on the dv Prompter server's internal storage
■ Multiple users can collaborate to the scripts library over IP
■ Built in dual band WiFi
■ Compatible with WR-450 Bluetooth controller to facilitate talent script control
■ Small form factor, rack mountable using RMK-2
■ 12V DC input

wi-fi

Script Distribution
Compatible with MAC, PC, and Android and iOS devices.

Controller
Create and load scripts, control scrolling and perform live edits on all prompter screens.
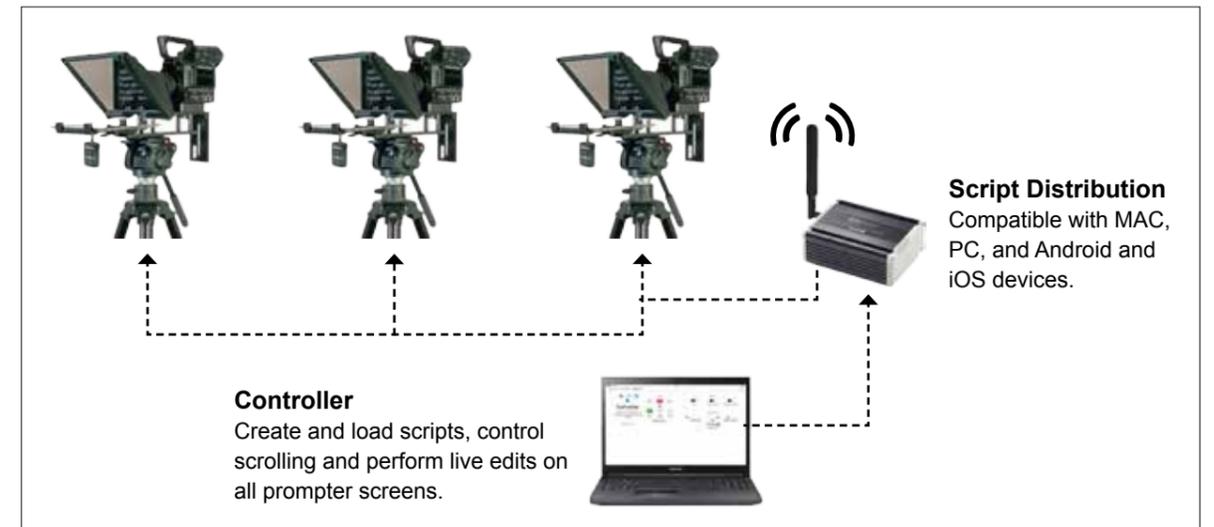

Applications

Corporate, AV and Education
Create programming with two presenters. Each anchor can have their own script with a teleprompter to guide them every step of the way. DVP-100 is controlled by a single operator who can easily manage and monitor the prompting scripts.

Broadcast
Ideal for live multi-presenter programs. Simply load up your script to the DV Prompter server and the DVP-100 allows you to sync up multiple teleprompters for seamless script delivery.
